Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Friday 08 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mild with rain in northwest. Some fog forming in south.

This Evening and Tonight:
The north and northwest will be cloudy with outbreaks of rain, heavy for a time in northwest Scotland. Misty and rather cloudy across Wales and central England perhaps with some drizzle. Clear spells elsewhere with patchy fog developing.

Saturday:
Fog clearing, then much of England and Wales dry with sunny spells and feeling fairly warm. Cloud and rain across Scotland and Northern Ireland with sunny spells in northwest later.

Outlook for Sunday to Tuesday:
Rain or showers likely at times in the north. Otherwise, predominately dry with variable cloud and some sunshine. Mist and fog patches possible overnight, slowly clearing by day.
